

ALARM INSTALLATION SPECIFICATIONS

Mod. 7156 / 7157

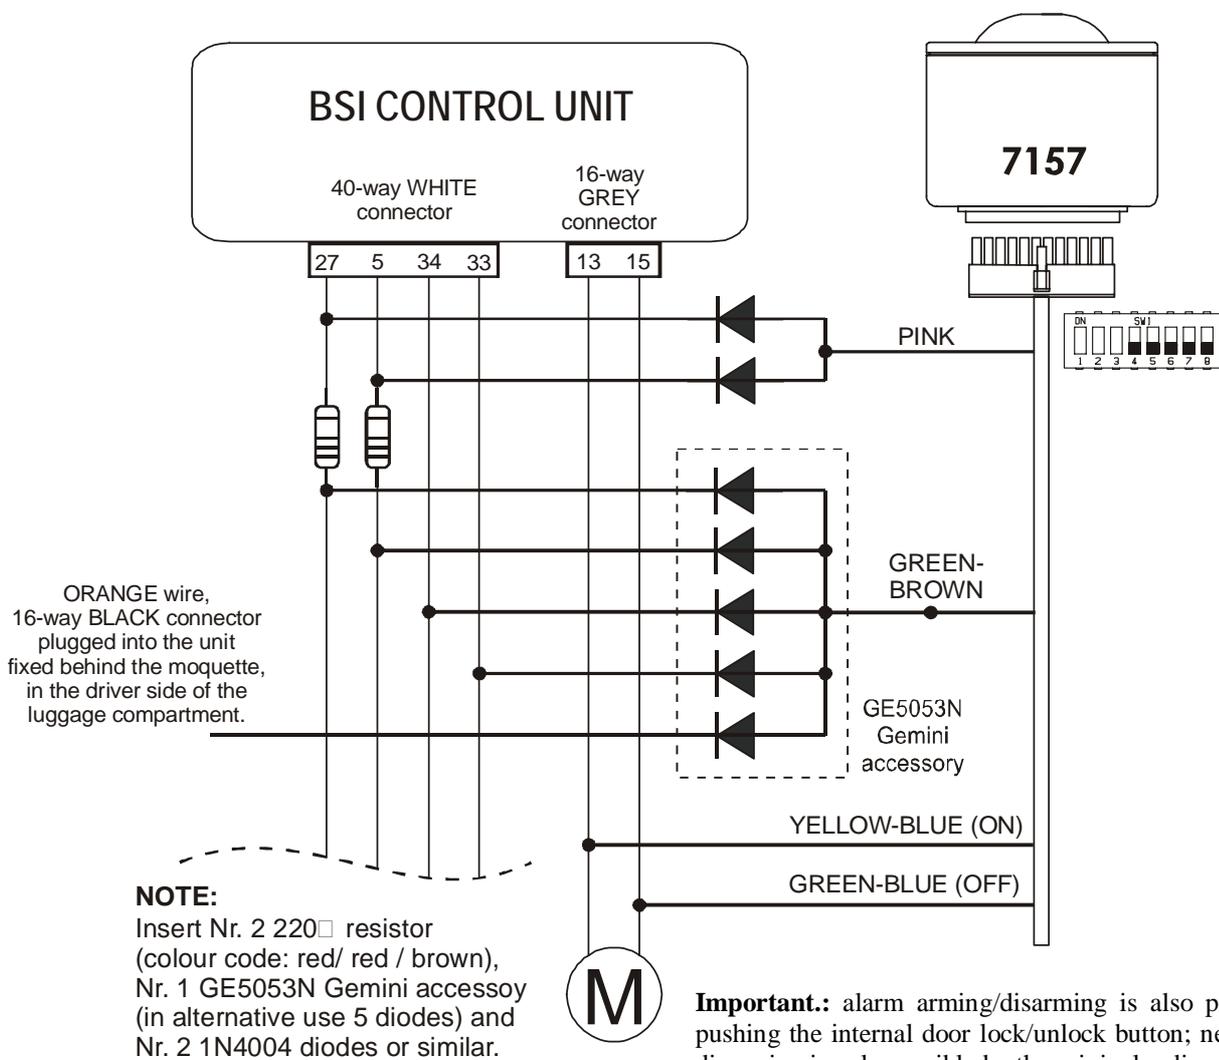

CAR: PEUGEOT 407

- Year of registration 2004

SPECIFICATIONS Nr: 32-16 / CPL

Yellow/Blue	Green/Blue	PINK	GREEN/BROWN
BROWN wire 0,75 mm ² , pos. 13, 16-way Grey connector, marked with PH2, attached to the BSI control unit, fitted under the dash from the driver's side.	PINK wire 0,75 mm ² , pos. 15, 16-way Grey connector, marked with PH2, attached to the BSI control unit, fitted under the dash from the driver's side.	Split the PINK wire with 2 diodes and connect it to the wires WHITE Ref. 8207 pos. 27 and WHITE Ref. 6286 pos. 5, located to the 40-way White connector marked with EHI, attached to the BSI control unit, fitted under the dash from the driver's side (break these wires and interpolate two 1KΩ resistances , as shown in the diagram).	Connection of door and bonnet switches. Use one Gemini accessory GE5053N (or alternatively 5 diodes); connect the following wires, as shown in the diagram: WHITE Ref. 8207 pos. 27, WHITE Ref. 6286 pos. 5, GREY Ref. 6288 pos. 34, WHITE Ref. 6287 pos. 33 to the 40-way White connector, marked with EHI attached to the BSI control unit, fitted under the dash from the driver's side and the ORANGE wire, pos. 3 to the 16-way Black connector, marked with EV2, attached to the control unit, under the moquette, to the luggage compartment from the driver's side.

Important: alarm arming/disarming is also possible by pushing the internal door lock/unlock button; nevertheless disarming is only possible by the original radio control. Furthermore, when the alarm is armed, central locking opens only by the original radio control.

ATTENTION: For the alarm installation, the wire running and the electrical connection of : supply, turn signals, positive under key, engine immobiliser, door, hood and trunk switches, please refer to the installation specifications, for traditional (radio controlled) alarms, concerning the specific vehicle.

NOTE It is suggested to exclude the absorption sensor.

IMPORTANT: ALL INFORMATION INCLUDED IN THESE SPECIFICATIONS ARE MERELY INDICATIVE AND NOT RESTRICTIVE.
