Remove the original radio and air-vent cover.

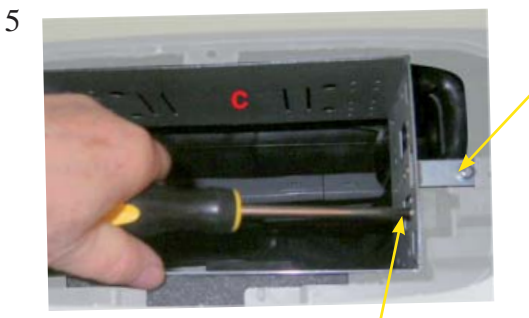

Remove the original air ventilation shafts. See picture 3

Without removing it, cut the front of the air-vent duct as shown. It is recommended to offer the cage to the opening to check the measurement before the final cut

Insert the paddles into the cut ducts, using the "U" section to guide the correct position. Remove backing paper and the stick the foam block in central position as shown.

Locate the cage in position, ensuring correct alignment to the foam block and screw, as shown.

Insert the Radio / DVD / Navigation unit into the cage until the springs click and engage fully.

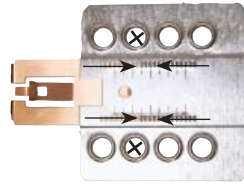

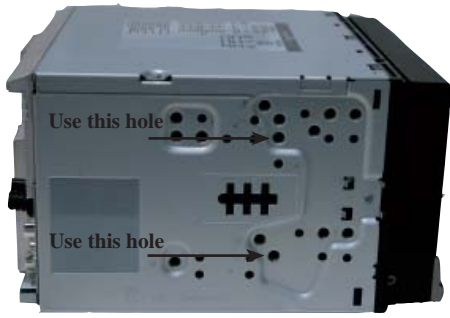

Using a screwdriver, or similar, push the paddles against the sides of the Radio / DVD/ Navigation unit to ensure correct airflow from the ventilation ducts.

Carefully apply the Housing / Panel First locate the top clips and then the lower section

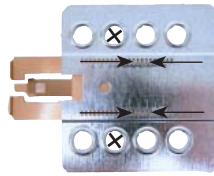

Alpine IVA-W205R
