

# Installation Manual Double DIN Kit

Take the lower part of the facia plate and couple it with the main plate as shown in figure below.

Reassemble the remaining parts on the new facia plate and mount the radio using mounting brackets (included)

Tighten the screw A and fix the air vents removed from the original mask using the 6 screws B as shown in figure .

All installation work must be performed by a qualified professional installer only. The manufacturer / dealer is not liable for any kind of incidental or indirect damages.
