

Installation Manual Double DIN Kit

Part Number: CT23FT23

Fiat Doblo 2015>

Matte Black

3. Place the aftermarket head unit into the bracket/fascia assembly and line up the mounting holes. Use the screws supplied to secure these together

4. Attach the metal retaining clips to the top of the fascia panel

5. Cut the dashboard at the positions shown. Remove the plastic sections 1 and 2. Note the maximum mounting depth is 120mm. For head units over 120mm in depth, the rest of the inner dashboard must be cut

6. Make required wiring connections and insert the head unit into the dashboard. Push the assembly until the clips lock into place. Refit the plastic trim removed in Step 1 to complete your installation

1. Remove the plastic trim from around the radio using a panel removal tool. Unscrew the screws holding the OEM head unit in place. Disconnect and remove the head unit

2. Screw the supplied brackets to the fascia plate using the supplied screws
