

# CAMERA FOR BACK DOOR HANDLE

## Product Features

- 1) High resolution, low illumination and night vision;
- 2) 170 degrees view angle (vertical 105 degrees, horizontal 120 degrees), with image adjusting function;
- 3) refit original rear handle with optional parking line function
- 4) Water and dust proof, keep normal working after dipping into water of 5-10 meters for 20 minutes.

## Product Parameter

Name	Camera for back door handle
Current Consumption	MAX:70mA
Power Supply	DC 9-16V
Sensor IC	USA OV7950 ,CMOS-III, 1/4"
Effective Pixels	656 x 492(320,000)
TV System	NTSC
Video output	Colorful video out: 1.0Vp-p 75(ohm) load
Resolution	480TV Lines
Angle	170°
Minimum illumination	0.3 Lux
Image	Mirror Back view
IR light	No
Coordinate line	Yes
Water Proof	Yes(IP67-IP68)
Operating Temperature	-20°C to +70°C

## Note

- ▶ Please take out the velum on the lens before use.
- ▶ Be careful, when install near by the oil box/gasoline tank of electrical wire.
- ▶ Please kindly note the polarity of power source.
- ▶ It should be the anode connect +12V power source.

## Electric Connection
